EDUCATION

T John Institute of Technology

Bangalore

Artificial Intelligence & Machine Learning Bachelor of Engineering (B.E.)

CGPA: 7.0

EXPERIENCE

Dhee Coding Lab | Python Full-Stack Development Trainee

Feb 2026 - Jul 2026

- Completed hands-on training in Python Full-Stack Development using Django, Flask, SQL, and MongoDB.
- Developed web applications and REST APIs as part of real-world training projects.
- Worked with SQL and MongoDB for database design and CRUD operations.
- Used Git and GitHub for version control and collaborative development.
- Strengthened problem-solving and debugging skills through practical project development.

SKILLS

Programming Languages:	JavaScript, Python, SQL, HTML5, CSS3
Libraries/Frameworks:	Django, Streamlit, TensorFlow, Keras, Scikit-learn, OpenCV
Tools / Platforms:	Git, GitHub, VS Code, REST APIs
Databases:	MySQL, MongoDB

PROJECTS / OPEN-SOURCE

AI Chatbot for VTU Curriculum

Python, NLP, Scikit-learn, Streamlit

- Developed an AI-powered academic chatbot to assist students with VTU curriculum-related queries using Python and Natural Language Processing (NLP).
- Implemented text preprocessing and machine learning techniques using Scikit-learn to understand user queries and generate context-aware responses.
- Designed an interactive Streamlit-based interface that enables users to access academic information through a simple conversational experience.
- Demonstrated the practical application of Artificial Intelligence and Machine Learning to improve access to educational resources.

Driver Drowsiness Detection System

Python, OpenCV, TensorFlow, Keras, Computer Vision

- Developed an AI-powered real-time driver drowsiness detection system using Python, OpenCV, TensorFlow, and Keras.
- Implemented facial landmark detection and Eye Aspect Ratio (EAR) algorithms to accurately monitor driver eye movements and detect fatigue.
- Integrated deep learning models for eye-state classification and designed an automated alert system to notify drivers of potential drowsiness.
- Applied computer vision techniques to build an intelligent safety solution focused on improving driver awareness and reducing accident risk.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle.
- Machine Learning - Infosys Springboard.
- Natural Language Processing - Infosys Springboard.
- Data Science Training - Internz Learn.
